

SafetyPal Sprint 2 Review

- **Heading:**

- Document name:
 - Sprint 2 Review
- Product name:
 - SafetyPal
- Team Members:

■ Evan Blank	(eblank@ucsc.edu)	Product owner
■ Rami Alrwais	(raalrwai@ucsc.edu)	Scrum master (s2)
■ Ali Hooman	(alhooman@ucsc.edu)	
■ Susana Esparza	(smesparz@ucsc.edu)	
■ Jeff Liao	(cliao9@ucsc.edu)	
- Sprint completion date:
 - July 24, 2018
- Revision number:
 - #2
- Revision date:
 - July 24, 2018

- **Actions to stop doing**

- Our team should stop underestimating tasks. We were not able to catch up completely but were able to complete a majority of our tasks from Sprint 2 and complete all remaining tasks from Sprint 1 .

- **Actions to start doing**

- Improve on our communication, we did more communication in Sprint 2 than in Sprint 1 but we can still improve.
- We should also set aside meeting times to pair program.

- **Actions to keep doing**

- Advancing our skills as programmers and team members. We should continue this trend of learning and developing new systems.
- 5 out of 6 members remain with only 1 member who has any Android development experience. We are all still learning to work with Android Studio and get apps running.

- **Work completed/Not completed** (green - completed, red - not completed)

User story 1 (13 pts) Complete: As a user, I would like to save contacts and have log-in capabilities so that I can instantly send messages to people I want to contact.

User story 2 (4 pts) Complete: As a user, I would like to be able to use this app effectively through an interactive UI.

User story 3 (6 pts) Moved to backlog: As a user, I need to send an SMS alert.

User story 4 (6 pts) Incomplete: As a user, I need to send my current location.

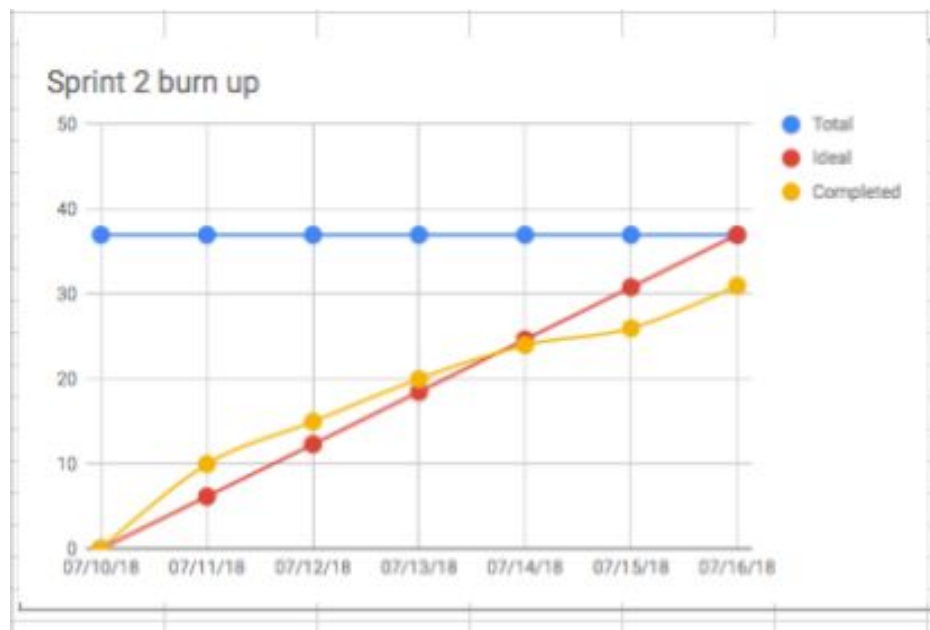

User story 5 (8 pts) Incomplete: As a user, I need to trigger an alarm on my safety contacts' devices when I am in trouble.

- **Work completion rate and burnup chart**

User story points completed: 31

Ideal work hours completed: 37

Days during sprint: 7

- Scrum Board
